

The typically very long title of your paper of whatever it is that you are making a poster about

First Author, Second Author and Possibly More

Your research group, your department, University of Gothenburg

Abstract

Or anything else that you don't want to display in a two-column format.

A block

Each block can contain:

- text
- lists, like this one
- tables (but put your tabulars inside minipages, not tables!)
- images, like the one in the block below

Another block with an image

A third 1-column block with a tiny table

Column 1	Column 2
Cell 1A	Cell 2A
Cell 1B	Cell 2B

Table 1: This is a caption

A block with sub-blocks

Each block can contain however many inner blocks.

An inner block

This is the first inner block.

Another inner block

This is the second and last inner block.

Blocks don't necessarily always have a title.

A block with a blue frame

This sticks out a little bit more.

The final block with credits

This template is largely based on the SINTEF poster template (see www.overleaf.com/latex/templates/sintef-poster/hksprpftfntf).
